LIST OF CONTENTS

8 JUNE

Editorial Addresses	i	
Steroid Nomenclature	v	
Marco A. Cerbón, Ana M. Pasapera, Rubén Gutiérrez-Sagal, Gustavo A. García and Gregorio Pérez-Palacios	1	Variable expression of the uteroglobin gene following the administration of norethisterone and its A-ring reduced metabolites
Carolyn M. Klinge, Robert A. Bambara, Sayeeda Zain and Russell Hilf	7	Nuclease sensitivity of estradiol-charged estrogen receptor binding sites in nuclei isolated from normal and neoplastic rat mammary tissues
Philippe Blanchardie, Marc Denis, Jean-Luc Orsonneau and Patrick Lustenberger	15	Reaction of tyrosyl-modifying reagents with the ligand- and DNA-binding domains of the rabbit liver glucocorticoid receptor
Clark W. Distelhorst and Kathryn J. Howard	25	Evidence from pulse-chase labeling studies that the antiglucocorticoid hormone RU486 stabilizes the nonactivated form of the glucocorticoid receptor in mouse lymphoma cells
Robert E. Kramer, John E. Buster and Richard N. Andersen	33	Differential modulation of ACTH-stimulated cortisol and androstenedione secretion by insulin
Günter Vollmer, Margit Kniewe, Ute Meyn, Lara Tuchel, Hans Arnholdt and Rudolf Knuppen	43	Spatial and molecular aspects of estrogen and progesterone receptor expression in human uteri and uterine carcinomas
W. Wouters, R. De Coster, D. Beerens, R. Doolaege, J. A. Gruwez, K. Van Camp, H. Van Der Pas and B. van Herendael	57	Potency and selectivity of the aromatase inhibitor R 76 713. A study in human ovarian, adipose stromal, testicular and adrenal cells
Joseph Montalto, John W. Funder, Arthur B. W. Yong, Harold E. Davies and John F. Connelly	67	Serum 5-androstene-3β,17β-diol sulphate and 5α-androstane-3α,17β-diol sulphate in hirsute females with polycystic ovarian disease
Per Fernlund and Sten Gershagen	75	2-Iodoestradiol binds with high affinity to human sex hormone binding globulin (SHBG)
M. N. Gannon, R. L. Spencer, J. R. Lundblad, B. S. McEwen and J. L. Roberts	83	Pharmacological characterization of Type II glucocorticoid binding sites in AtT20 pituitary cell culture
Vincenzo Toscano, Stefania Caiola, Marella Maroder, Maria Vittoria Adamo, Livio Argiolas, Antonio Familiari and Giuseppe Familiari	89	Effects of dihydrotestosterone treatment on adrenal gland function and morphology in adult female guinea-pigs
S. Lundgren, P. E. Lønning, E. Utaaker, A. Aakvaag and S. Kvinnsland	99	Influence of progestins on serum hormone levels in postmenopausal women with advanced breast cancer—I. General findings
S. Lundgren and P. E. Lønning	105	Influence of progestins on serum hormone levels in postmenopausal women with advanced breast cancer—II. A differential effect of megestrol acetate and medroxyprogesterone acetate on serum estrone sulfate and sex hormone binding globulin
Yie Shang-Mian, Wang Rong, Zhu Yi-Xue, Liu Guang-Ying and Zheng Fu-Xian	111	Circadian variations of serum sex hormone binding globulin binding capacity in normal adult men and women

James L. Thomas, Richard P. Myers, Leonard O. Rosik and Ronald C. Strickler	117	Affinity alkylation of human placental 3β-hydroxy-5-ene-steroid dehydrogenase and steroid 5$\rightarrow$4-ene-isomerase by 2α-bromoacetoxyprogesterone: evidence for separate dehydrogenase and isomerase sites on one protein
Robert M. Hoyte, Neil J. MacLusky and Richard B. Hochberg	125	The synthesis and testing of E-17α-(2-iodovinyl)-5α-dihydrotestosterone and Z-17α-(2-iodovinyl)-5α-dihydrotestosterone as γ-emitting ligands for the androgen receptor
Donald Poirier, Claude Labrie, Yves Mérand and Fernand Labrie	133	Derivatives of ethynylestradiol with oxygenated 17α-alkyl side chain: synthesis and biological activity
Farid Meggouh, Patrice Lointier, Denis Pezet and Simone Saez	143	Evidence of 1,25-dihydroxyvitamin D_3-receptors in human digestive mucosa and carcinoma tissue biopsies taken at different levels of the digestive tract, in 152 patients
Susana Genti-Raimondi, Nora S. Olivier, Luis C. Patrito and Alfredo Flury	149	Kinetic analysis of 3β-hydroxysteroid dehydrogenase activity in microsomes from complete hydatidiform mole
W. Schänzer, G. Opfermann and M. Donike	153	Metabolism of stanozolol: identification and synthesis of urinary metabolites
Ray V. Haning Jr, Richard J. Hackett, Renee I. Boothroid and Jacob A. Canick	175	Steroid sulphatase activity in the human ovarian corpus luteum, stroma, and follicle: comparison to activity in other tissues and the placenta
Short Communication **C. Hörhold and K.-H. Böhme**	181	Formation of progesterone and 1-dehydroprogesterone from cholesterol in fermentation cultures of *Mycobacterium aurum*
Book Reviews	185	
Forthcoming Papers	I	

22 JUNE

PROCEEDINGS OF THE TOREMIFENE SYMPOSIUM

SATELLITE SYMPOSIUM HELD AT THE UICC WORLD CANCER CONGRESS

Preface	v	
M. Baum	187	The role of endocrine therapy in primary breast cancer
Lauri Kangas	191	Review of the pharmacological properties of toremifene
Niklas H. Simberg, James T. Murai and Pentti K. Siiteri	197	*In vitro* and *in vivo* binding of toremifene and its metabolites in rat uterus
E. di Salle, T. Zaccheo and G. Ornati	203	Antiestrogenic and antitumor properties of the new triphenylethylene derivative toremifene in the rat
Anni Wärri and Lauri Kangas	207	Effect of toremifene on the activity of NK-cells in NZB/NZW mice
Hannu Sipilä, Lauri Kangas, Lauri Vuorilehto, Arja Kalapudas, Maire Eloranta, Marja Södervall, Reijo Toivola and Markku Anttila	211	Metabolism of toremifene in the rat
S. Kivinen and J. Mäenpää	217	Effect of toremifene on clinical chemistry, hematology and hormone levels at different doses in healthy postmenopausal volunteers: phase I study
J. Mäenpää, K.-O. Söderström, M. Grönroos, E. Taina, A. Hajba and L. Kangas	221	Effect of toremifene on estrogen primed vaginal mucosa in postmenopausal women
I. Hindy, É. Juhos, J. Szántó and I. Számel	225	Effect of toremifene in breast cancer patients. Preliminary communication

S. Pyrhönen, R. Valavaara, M. Heikkinen, P. Rissanen, G. Blanco, E. Nordman, L. R. Holsti and A. Hajba	227	Treatment of advanced breast cancer with 20 mg toremifene, a phase II study. Preliminary communication
R. Valavaara, S. Pyrhönen, M. Heikkinen, P. Rissanen, G. Blanco, E. Nordman, P. Taskinen, L. R. Holsti and A. Hajba	229	Safety and efficacy of toremifene in breast cancer patients. A phase II study
Stein Gundersen	233	Toremifene, a new antiestrogenic compound in the treatment of metastatic mammary cancer. A phase II study
H. Modig, S. Borgström, I. Nilsson and G. Westman	235	Phase II clinical study of toremifene in patients with metastatic breast cancer. Preliminary communication
H. Modig, S. Borgström, I. Nilsson and G. Westman	237	Phase II clinical study of high-dose toremifene in patients with advanced breast cancer
S. R. Ebbs, J. Roberts and M. Baum	239	Response to toremifene (Fc-1157a) therapy in tamoxifen failed patients with breast cancer. Preliminary communication
G. Horváth, C. Tropé and H.-E. Almbo	241	A phase II study of toremifene in carcinoma corporis uteri. Preliminary communication
I. Számel, B. Vincze, I. Hindy, S. Kerpel-Fronius, S. Eckhardt, J. Mäenpää, M. Grönroos, L. Kangas, H. Sundquist and A. Hajba	243	Hormonal effects of toremifene in breast cancer patients
M. Anttila, R. Valavaara, S. Kivinen and J. Mäenpää	249	Pharmacokinetics of toremifene
L. Kangas and M. Grönroos	253	Antitumor effects of a combination of toremifene and medroxyprogesterone acetate (MPA) *in vitro* and *in vivo*
Lauri Kangas, Kari Cantell and Huub Schellekens	259	Additive and synergistic antitumor effects with toremifene and interferons
Forthcoming Papers	I	

JULY

Peter J. Fuller and Karen Verity	263	Mineralocorticoid receptor gene expression in the gastrointestinal tract: distribution and ontogeny
H. C. Bauer and H. Bauer	269	Effects of progesterone, epipregnanolone and RU 38486 on potassium uptake in cultured cortical neurons
O. Olakanmi and D. W. Seybert	273	Modified acetylenic steroids as potent mechanism-based inhibitors of cytochrome P-450_{scc}
Matthew S. Galman, Susan A. Sundstrom and C. Richard Lyttle	281	Antagonism of estrogen- and antiestrogen-induced uterine complement component C3 expression by ICI 164,384
Darrell W. Brann, Carla D. Putnam and Virendra B. Mahesh	287	Similarities and differences in progesterone and androgens in modulation of LH, FSH and PRL release: unexpected properties of flutamide
Kandan Sethumadhavan and Francis L. Bellino	295	Estrogen synthetase (aromatase). Affinity purification of antibody against the cytochrome P450 component
Mariá Cristina Loza, Antonio Valencia and Juan José Hicks	301	Uterine estrogen sulfatase activity. Influence of steroid hormones and adenine nucleotides
N. Terada, R. Yamamoto, T. Takada, H. Taniguchi, N. Terakawa, W. Li, Y. Kitamura and K. Matsumoto	305	Inhibitory effect of androgen on cell death of mouse uterine epithelium

Stephen R. Plymate, Pearl C. Namkung, Louis A. Metej and Philip H. Petra	311	Direct effect of plasma sex hormone binding globulin (SHBG) on the metabolic clearance rate of 17β-estradiol in the primate
Françoise Hérve, Myriam Gentin, Krzysztof M. Rajkowski, Lawrence T. Wong, Carleton J. C. Hsia and Nicole Cittanova	319	Estrogen-binding properties of rat serum α_1-fetoprotein and its isoforms. Investigation of the apparent non-integrality of sites on the unfractionated protein
Robert W. Brueggemeier, Ko Tseng, Nancy E. Katlic, Mustapha A. Beleh and Young C. Lin	325	Estrogen metabolism in primary kidney cell cultures from Syrian hamsters
Hooshang Lahooti, Thor Thorsen and Asbjørn Aakvaag	333	Effect of ATP on the regulation of the steroid binding activity of the oestradiol receptor
David L. Thompson, Roger S. Rittmaster, Angela M. Rodriguez, Perry H. Moore Jr and Pemmaraju N. Rao	345	Synthesis of new steroid haptens for radioimmunoassay—VIII. Development and validation of a specific radioimmunoassay for serum 5α-androstane-3α,17β-diol 17-glucuronide
Raida Harik-Khan and Ross P. Holmes	351	Estimation of 26-hydroxycholesterol in serum by high-performance liquid chromatography and its measurement in patients with atherosclerosis
Maria A. Bacigalupo, Luigi Ferrara, Giacomo Meroni and Adriano Ius	357	Time-resolved fluoroimmunoassay of progesterone in milk
Katsuko Suhara, Minoru Yamamoto and Masayuki Katagiri	361	Hydroxylation of 19-norandrostenedione by adrenal cortex mitochondrial $P\text{-}450_{11\beta}$
Mitsuteru Numazawa, Tomomi Konno, Ruriko Furihata and Sonoko Ishikawa	369	Determination of aromatization of 19-oxygenated 16α-hydroxyandrostenedione with human placental microsomes by high-performance liquid chromatography coupled with coulometric detection
Martti Parvinen and Ilpo Huhtaniemi	377	Testosterone micromilieu in staged rat seminiferous tubules
Book Reviews	383	
Forthcoming Papers	I	
Announcements	II	

14 AUGUST

Editorial	i	
Philippa D. Darbre and R. J. B. King	385	Antiandrogen ICI 176,334 does not prevent development of androgen insensitivity in S115 mouse mammary tumour cells
M. Pons, E. Bignon, A. Crastes de Paulet, J. Gilbert, T. Ojasoo and J. P. Raynaud	391	Hydroxylated triphenylacrylonitriles adopt a unique orientation within the binding site of the estrogen receptor
Gurpal S. Bansal and David S. Latchman	399	Oestrogen enhances the responsiveness of the MMTV-LTR to glucocorticoid in ZR-75-1 human breast cancer cells
L. M. Harrison and P. V. Fennessey	407	Methandrostenolone metabolism in humans: potential problems associated with isolation and identification of metabolites
Thierry Normand, Christiane Jean-Faucher and Claude Jean	415	Neonatal exposure to oestrogens alters the protein profiles and gene expression in the genital tract of adult male mice
Adele J. Wolfson, Janey Sue Andrews and Elizabeth P. Roquemore	425	Specific nuclear uptake of intracellularly-produced estrogen by rat granulosa cells
Olaf Ortmann, Katja Hansemann, Rudolf Knuppen and Günter Emons	431	Modulatory actions of the new antiprogestins ZK 98.299 and ZK 98.734 and of RU 486 on luteinizing hormone secretion and progesterone effects in pituitary gonadotrophs

Peter A. Elder, Laurette Manley and John G. Lewis 439 Use of a monoclonal antibody to estrone-3-glucuronide in an enzyme-linked immunosorbent assay (ELISA)

A. J. Grootenhuis, R. Melsert, M. A. Timmerman, J. W. Hoogerbrugge, F. F. G. Rommerts and F. H. de Jong 445 Short-term stimulatory effect of Sertoli cell conditioned medium on Leydig cell steroidogenesis is not mediated by inhibin

J. Van Eldere, J. Mertens and H. Eyssen 451 Influence of intestinal bacterial desulfation on the enterohepatic circulation of dehydroepiandrosterone sulfate

Hela Gitay-Goren, Joseph M. Brandes and Shalom Bar-Ami 457 Altered steroidogenic pattern of human granulosa-lutein cells in relation to cumulus cell culture morphology

Xuefan Xu, Johan Hoebeke and Per Björntorp 465 Progestin binds to the glucocorticoid receptor and mediates antiglucocorticoid effect in rat adipose precursor cells

Arto K. Orpana, Mauri M. Orava, Reijo K. Vihko, Matti Härkönen and C. J. Peter Eriksson 473 Ethanol-induced inhibition of testosterone biosynthesis in rat Leydig cells: role of L-glutamate and pyruvate

Satoko Arakawa, Akira Kambegawa, Shoichi Okinaga and Kiyoshi Arai 479 Luteolytic effect of the antiprogestin and antiglucocorticoid agent RU486 in rats

Catherine Pasqualini, Alain Sarrieau, Monique Dussaillant, Maithé Corbani, Florence Bojda-Diolez, William Rostène and Bernard Kerdelhué 485 Estrogen-like effects of 7,12-dimethylbenz(a)anthracene on the female rat hypothalamo–pituitary axis

Behling Cheng, Iris A. Horst and Jerome Kowal 493 Further characterization of the inhibitory effect of monensin on adrenal steroidogenesis

Short Communications

Tadashi Ohkubo, Ayako Takahashi and Toshio Nambara 501 Multiplicity of *in vitro* glucuronidation of 2-hydroxyestriol

S. A. Howell and A. I. Mallet 505 A novel lanosterol isomer produced in response to azole antifungals

Book Reviews 507

Forthcoming Papers I

Announcements III

28 AUGUST

Editorial i

Mary F. Ruh, Jane W. Turner, Christine M. Paulson and Thomas S. Ruh 509 Differences in the form of the salt-transformed estrogen receptor when bound by estrogen versus antiestrogen

Takara Yamamoto, Masaaki Fukuoka, Yasuko Fujimoto, Jo Kitawaki, Masamichi Nakakoshi, Makoto Yoshihama and Hiroji Okada 517 Inhibitory effect of a new androstenedione derivative, 14α-hydroxy-4-androstene-3,6,17-trione (14α-OHAT) on aromatase activity of human uterine tumors

A. Magini, M. Pazzagli, R. Salerno, M. Simonis, G. Mustacchi and M. Serio 523 Ovarian function in premenopausal women affected by breast cancer: the measurement of glucuronoconjugate metabolites of 17β-estradiol and progesterone throughout one entire menstrual cycle

C. J. M. Arts, J. W. G. M. Wilmer, A. Th. H. J. de Bie and H. van den Berg 527 *In vitro* synthesis of 16α-hydroxyestrone by female rat liver microsomes: its possible role in the etiology of breast cancer

Pui-Kai Li and Robert W. Brueggemeier	533	7-Substituted 1,4,6-androstatriene-3,17-diones as enzyme-activated irreversible inhibitors of aromatase
Fernando Larrea, Rosa Maria Oliart, Julio Granados, Osvaldo Mutchinick, Vicente Diaz-Sanchez and Neal A. Musto	541	Genetic polymorphism of the human sex hormone-binding globulin: evidence of an isoelectric focusing variant with normal androgen-binding affinities
Kathryn E. Carlson and John A. Katzenellenbogen	549	A comparative study of the selectivity and efficiency of target tissue uptake of five tritium-labeled androgens in the rat
Richard A. Galbraith and Peter H. Jellinck	563	Selective inhibition of cytochrome *P*-450 in rat testicular microsomes: effect of cobalt-protoporphyrin on progesterone metabolism
Michael Murray and Brian P. Horsfield	569	17β-Hydroxysteroid oxidoreductase activity: age-dependent profile in rat liver and kinetic properties of the hepatic microsomal enzyme in relation to cytochrome *P*450-dependent steroid hydroxylation
Marie-Laure Kottler, Mauricette Domingo, Joel Tardivel-Lacombe, Monique Egloff, Can D. Dang and Herve Degrelle	575	Regulation of plasma corticosteroid-binding globulin in adult cynomolgus monkey (*Macaca fascicularis*) during different reproductive states
Marie T. Pham-Huu-Trung and Michel Binoux	583	Insulin-like growth factor I (IGF I) induces cortisol production in bovine adrenocortical cells in primary culture
Patricia Provencher, Ann Lorrain, Alain Bélanger and Jean Fiet	589	Steroid biosynthesis by zona glomerulosa-fasciculata cells in primary culture of guinea-pig adrenals
Philippe Boudou, Jean Fiet, Patrick Vexiau, Jean-Marie Villette, Noah Hardy and Claude Dreux	597	Greater conversion of testosterone to 5α-dihydrotestosterone, reflecting increased peripheral 5α-reductase activity in nude mice treated with high doses of cyclosporine A
Arto K. Orpana, Mauri M. Orava, Reijo K. Vihko, Matti Härkönen and C. J. Peter Eriksson	603	Ethanol-induced inhibition of testosterone biosynthesis in rat Leydig cells: central role of mitochondrial NADH redox state
A. N. Smirnov	609	Estrophilic 3α,3β,17β,20α-hydroxysteroid dehydrogenase from rabbit liver—I. Isolation and purification
A. N. Smirnov	617	Estrophilic 3α,3β,17β,20α-hydroxysteroid dehydrogenase from rabbit liver—II. Mechanisms of enzyme–steroid interaction
Magnus Axelson and Jan Sjövall	631	Potential bile acid precursors in plasma—possible indicators of biosynthetic pathways to cholic and chenodeoxycholic acids in man
Janet Brotherton and Birgit Rothbart	641	Serum cortisol in adrenal hirsutism as estimated by five different methods
Morris Kaufman, Leonard Pinsky, Bruce Gottlieb and Mark Trifiro	651	The state transitions of normal and mutant androgen–receptor complexes in human genital skin fibroblasts
R. Craig Kammerer, James L. Merdink, Mark Jagels, Don H. Catlin and Ka Kit Hui	659	Testing for fluoxymesterone (Halotestin®) administration to man: identification of urinary metabolites by gas chromatography–mass spectrometry
Yotsuo Higashi, Ken-ichiro Yoshida and Hiroyuki Oshima	667	*In vitro* inhibition by ketoconazole of human testicular steroid oxidoreductases
O. Mäentausta, H. Peltoketo, V. Isomaa, P. Jouppila and R. Vihko	673	Immunological measurement of human 17β-hydroxysteroid dehydrogenase
B. Douglas White and Roy J. Martin	681	Alterations in the binding characteristics of glucocorticoid receptors from obese Zucker rats
H. W. Alila, J. S. Davis, J. P. Dowd, R. A. Corradino and W. Hansel	687	Differential effects of calcium on progesterone production in small and large bovine luteal cells
J. B. Adams and N. S. Phillips	695	Properties of estrogen and hydroxysteroid sulphotransferases in human mammary cancer

Short Communication
P. S. Campbell and K. A. Swanson 703 Preferential nuclear binding of estrogen in the formalin-fixed rat uterus

Forthcoming Papers I

Announcement II
